

# BrickNerd Instructions

## Cassette Tape

*Design by the BrickNerd Team*

The cassette tape was a game-changer back in the day, making music portable and personal. To celebrate this retro classic, our design stays true to the real thing. It has curved corners, tape reels, a label, and even the little clear window that shows the tape inside.

Building this set is like hitting play on nostalgia. It'll take you back to the days of making mixtapes for your buddies and recording your favorite song from the radio. And it ever implements a sweet little stud inversion on the sides to keep things interesting.

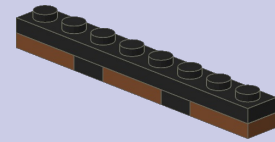

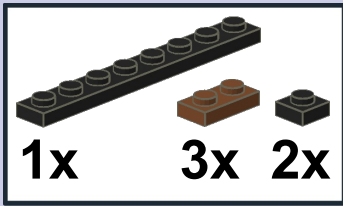

So get your pencils out because it is time to be kind and rewind!
